Education

Indian Institute of Technology Roorkee — Roorkee, Uttarakhand
Bachelor of Technology in Production and Industrial Engineering(CGPA: 8.796) — *Aug. 2023 – Present*

Vidhya Sagar Senior Secondary School — Jaipur, Rajasthan
Intermediate (Class XII) (Percentage: 94.40%) — *March 2022 – April 2023*

Projects

Inventory Monitoring & Optimization using SQL & Power BI | *C&A Club , IIT Guwahati* — July 2025
- Analyzed 110K+ transactions across 20 stores and 5,000 SKUs to identify stock inefficiencies and demand gaps
- Engineered KPIs like Reorder Point and Turnover Ratio, projected to improve restocking efficiency by 40%
- Crafted interactive Power BI dashboard to track 7+ KPIs, enabling data-driven decision-making across 4 regions

Credit Risk Default Prediction using Behavioral Analytics | *Finance Club* — June 2025 – July 2025
- Built a ML model using repayment trends & utilization ratio, achieving 82.5% recall in detecting defaulters
- Compared payment patterns to identify key drivers of default risk and improve interpretability of predictions
- Optimized predictions via F2-based threshold tuning, reducing missed defaulters by 2-3 times vs baseline

Airline Operations Delay Analysis and Forecasting | *Society of Business* — May 2025 – June 2025
- Interpreted 179K+ flight records to identify delay trends across carriers, airports, and time periods
- Developed predictive models for delay occurrence and duration, achieving 0.91 F1-score and 0.70 R2-score
- Identified key operational drivers using feature analysis to support scheduling and resource planning decisions

Real-Time Brand Sentiment Monitoring Using Python | *Self Project* — May 2025
- Designed an end-to-end pipeline using 2 APIs(News & Reddit) to collect and unify real-time brand sentiment data
- Applied NLP (VADER) to transform unstructured text into sentiment trends and actionable insights
- Implemented a Streamlit dashboard to visualize sentiment patterns and support brand perception analysis

Awards / Academic Achievements

- Awarded "Best Member of Management Cell", National Service Scheme (2024–25)
- JEE Advanced Rank: 6764, JEE Main Rank: 7992

Technical Skills

Languages: Python, SQL, HTML, CSS
Tools: MySQL, Microsoft Excel, Canva, Streamlit, Power BI
Libraries: Numpy, Pandas, Matplotlib, Seaborn, Scikit-Learn, Keras
Core Concepts: Data Analysis, Data Visualization, Business Intelligence, Statistical Analysis

Leadership / Extracurricular

Deputy Cell Secretary — July 2024 - May 2025
National Service Scheme — *IIT Roorkee*
- Led 800+ volunteers and managed 20+ high-impact events including donation drives, plantation and workshops
- Supervised ₹7L operations budget within a ₹20L fest, handling logistics and execution for large-scale events

Co-Coordinator — Jan. 2025 – March 2025
Cognizance — *IIT Roorkee*
- Coordinated execution of AGENT-X (AI hackathon) and SNAP SYNTAX, engaging 300+ participants
- Managed logistics, timelines, and participant flow for both flagship coding events, ensuring seamless execution

Core Team Member — April 2025 – Present
Google Developer Student Clubs — *IIT Roorkee*
- Member of AI/ML vertical in GDSC, a tech-entrepreneurial club supporting startups and VC-focused innovation
- Gained exposure to product thinking, early venture models, and core skills for technical entrepreneurship

Student Representative — October 2024
Under Ministry of Tribal Affairs (TRIFED) — *Government of India*
- Represented TRIFED at Harsh-o-Ullas exhibition, engaging a 50K+ footfall audience while promoting tribal crafts
- Led visitor engagement and awareness efforts, while providing feedback to improve future outreach strategies
